

**Product Name:** 6× BPB loading Dye

This product is research use only.

## **Description:**

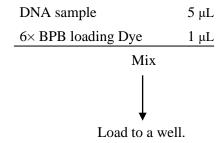

6× BPB loading Dye is useful for loading DNA samples into wells on agarose gel electrophoresis. It contains 36 mM EDTA • 2Na, 40 % glycerol, 0.075 % bromphenol blue and 10 mM Tris-HCl (pH8.0).

**Storage condition:** Stable at room temperature.

For long time storage,  $-20^{\circ}$ C is recommended.

## **Recommended usage:**

Add 1/6 volume of  $6 \times$  Loading Dye to the DNA sample, then apply to a well on agarose gel.
