Component	Quantity	Storage
Magtrap [®] - <i>P</i> <Magnetic separator>	1 kit	RT

<Storage condition>

Store at room temperature.

Do not autoclave Magtrap-*P*.

Keep objects that could be damaged by magnets away from the working area. Handle Magtrap-*P* with care and avoid contact with other magnets.

<Description>

Magtrap-*P* is a magnetic bead separation rack which can pull magnetic particles to the tube wall. Magtrap-*P* holds 8 (0.2 mL) tubes.

The removable magnet system allows for manual sample shaking, making it easy to process samples.
